

S17-Limited Availability Master Schedule

Schedule Data Filters

This sheet shows all of the assignments. You can filter the assignments to display only the desired day, date, employee, shift/task/location or time by clicking on the little down arrow in the table header row and selecting the item you would like to be displayed. You can filter the data on more than one column by selecting a filter in multiple columns.

The little down arrow will be black if no filter has been selected and it will be blue if a one has been selected. You can remove the filter by selecting "All" from the drop-down menu. If you want to hide blank rows you can select "NonBlanks" from the bottom of the drop-down menu.

The sheet needs to be unprotected if you want to change the data filters.

The print range has been set to use as many sheets of paper as necessary to print all of the displayed rows.

The data filters have been set to show only employee Beth Cain.

Day	Date	Employee	Shift/Task/Location	Start	Stop
Mon	1-Jan-07	Beth Cain	Floor	9:00 AM	10:00 AM
Mon	1-Jan-07	Beth Cain	Floor	4:00 PM	5:00 PM
