

# S9-Automatic Call Schedules All Calls

**Call Schedule Data Filters**

This sheet shows all of the call assignments that have been saved on the "Saved Assignments" sheet in ascending date-order. You can filter the call assignments to display only the desired doctor, date, day or call by clicking on the little down arrow in the table header row and selecting the item you would like to be displayed. You can filter the data on more than one column by selecting a filter in multiple columns.

The little down arrow will be black if no filter has been selected and it will be blue if a one has been selected. You can remove the filter by selecting "All" from the drop-down menu. If you want to hide blank rows you can select "NonBlanks" from the bottom of the drop-down menu.

The print range has been set to use as many sheets of paper as necessary to print all of the displayed rows.

**This sheet needs to remain unprotected for the data filters to work.**

## Call Schedule

Doctor	Day	Date	Call
	Sunday	January 1, 2006	St Lukes #1
	Sunday	January 1, 2006	St Lukes #2
