Tuesday	January 31, 2006	Fox C. Armstrong	Mary Z. Richardson	Nat I. Bean	Norm C. Dickerson			

3 Day weekend calls as specified on the Input sheet for SJ City.

You can change any of the assignments on this sheet using the drop-down menus of qualified people after the scheduling macro is finished randomly assigning people to shifts.

The cell will turn red if the automatic scheduling logic is unable to assign someone to the shift. You can then manually assign someone using the drop-down menus.
